

DAKINE POLISH SKIMBOARDING OPEN
powered by Zentrom

The countdown has started to the second edition of the Polish Skimboarding Open. On July 29-30 the European Inland Skimboarding scene will be focused on Poland.

The Polish Skimboarding Open a year ago earned the reputation as one the most important events of this kind in the world.

Come July we expect the best riders from Europe and many from Poland. Last year the Open drew in over 80 registered competitors... who knows how many will be in 2011! The open formula of the contest allows both PRO and AM riders to compete against one another so this can be a turning point in career for some of them and better motivation for all riders.

In addition to the two days of struggling it out in the skimpark the PSOpen provides many additional attractions and among them include:

- Official Afterparty at the Beach Club combined with the Rip Curl Night Session – skimboarding under artificial light.
- Free demos of skimboards from brands like: Fanila, FNCY Fair, Hasan, Pakalolo and Seventy One.
- We don't forget about girls... there will be a special competition for them sponsored by Powder Room.

The PSOpen website has already started the on-line registration for riders.
